

ProDental

CPD

Part of the **agilio** Group
SOFTWARE

**High-quality e-learning courses
for the whole dental team,
available anytime, anywhere**

Finding time to complete your mandatory CPD can be difficult. ProDentalCPD provides high-quality professional development for all members of the dental team so that they can fit around their schedule without impacting upon work. With both text-based and video courses available, created by industry experts including members of the Agilio Software Clinical Board, there is something to match all learning styles.

What do people have to say about some of our courses:

An outstanding course with all of the hints, tips and additional details that can assist with patient care at any practice

Superb input from both speakers, enabling a clear and concise approach to complaints handling

Great webinar explaining oral cancer and the signs and symptoms in detail along with some informative case studies

Courses suitable for all dental professionals

You can filter our courses by category. Some categories include:

Anaesthesia and
Pain Control

Anxiety and
Sedation

Clinical
Governance

CQC

Endodontics

Facial Aesthetics

Implants

Orthodontics
